

Colon Session

Saturday, June 22, 2019

	Professor	Colon Session
		Armando Melani / Mark Soliman
		ASCENDING AND SEGMENTAL COLECTOMY
7:00 am - 7:13 am	Pier Paolo Bianchi	Robotic bottom up right colectomy
7:13 am - 7:21 am	Giuseppe Spinoglio	Robotic bottom-to-up right colectomy with CME: tips and tricks
7:21 am - 7:29 am	Giuseppe Spinoglio	Comparison between medial-to-lateral and bottom-to-up right colectomy with CME-. Personal experience
7:29 am - 7:42 am	Giuseppe Spinoglio	Fluorescence guided-robotic right colectomy with CME and bottom-to-up approach
7:42 am - 7:50 am	Craig Johnson	Robotic extended right colectomy for large tumor
7:50 am - 8:03 am	Mark Soliman	Mastery of the intracorporeal anastomosis
8:03 am - 8:11 am	Pier Paolo Bianchi	Robotic splenic flexure takedown
8:11 am - 8:19 am	Seon-hahn Kim	Robotic Arc of riolan preserving splenic flexure takedown.
8:19 am - 8:32 am	Carlos Veo	Standardization of robotic splenic flexure takedown
8:32 am - 8:40 am	Craig Johnson	Robotic subtotal colectomy
8:40 am - 8:48 am	Henry Lujan	Robotic total abdominal colectomy with ileorectal anastomosis
8:48 am - 9:15 am	COFFEE BREAK	
		BENIGN LEFT SIDED RESECTIONS
9:15 am - 9:23 am	Mark Soliman	Totally robotic sigmoid and left hemicolectomies. Advanced technical pearls you won't find in a textbook.
9:23 am - 9:31 am	Giuseppe Spinoglio	Robotic colectomy for complex diverticulitis
9:31 am - 9:39 am	Craig Johnson	Robotic in complicated diverticulitis in obese
9:39 am - 9:47 am	Itzel Vela	Robotic complicated diverticular disease with colocutaneous fistula and bladder resection
9:47 am - 9:55 am	Cesar Santiago	Complex diverticular disease with Colovaginal fistula
9:55 am - 10:03 am	Pier Paolo Bianchi	Sigmoidectomy for diverticulitis with rectal artery preservation
10:03 am - 10:11 am	Ricardo Abdalla:	LST Rectum resection with Robotic
10:11 am - 10:19 am	Henry Lujan	Anvil drop technique (Tips)
10:19 am - 10:27 am	Marcos Denadai	Robotic rectosigmoidectomy with transvaginal specimen extraction
10:27 am - 10:40 am	Juan Carlos Sanchez	Robotic pelvic organ prolapse surgery. which technique is better?
10:40 am - 10:48 am	Cesar Santiago	Rectal prolapse and ventral rectopexy with mesh
10:48 am - 10:56 am	Craig Johnson	Robotic proctectomy and j pouch
10:56 am - 11:04 am	Juan Carlos Sánchez	Robotic Intracorporeal Anastomosis
11:04 am - 11:12 am	Paulo Galvao	Outcomes of surgical treatment of deep endometriosis
11:12 am - 11:20 am	Eduardo Parra Davila	Robotic reversal of Hartmann's
11:20 am - 11:28 am	Seon-hahn Kim	Robotic Presacral bleeding control
11:28 am - 11:36 am	Guy Seog Choi	Dual image guided lateral pelvic node dissection
11:36 am - 11:44 am	Amjad Parvais	European program for training in robotic colorectal surgery
11:44 am - 1:00 pm	LUNCH	
		RECTAL CANCER 1

Colon Session

Saturday, June 22, 2019

1:00 pm - 1:13 pm	Marcos Denadai	Surgical treatment of rectal cancer by robotic approach
1:13 pm - 1:21 pm	Vladimir Schraibman	Robotic total mesorectal excision for rectal adenocarcinoma
1:21 pm - 1:34 pm	Guy Seog Choi	Oncologic outcome of robotic rectal cancer surgery
1:34 pm - 1:47 pm	Giuseppe Spinoglio	Robotic TME
1:47 pm - 2:00 pm	Seon-hahn Kim	Can more anal sphincters be saved with robot?
2:00 pm - 2:08 pm	Amjad Parvais	Marginal gains in standardization for robotic TME surgery
2:08 pm - 2:16 pm	Craig Johnson	Robotic LAR in obese patient
2:16 pm - 2:29 pm	Cesar Santiago	Ultra low anterior resection on an obese male, who needs ta tme?
2:29 pm - 2:37 pm	Itzel Vela	Robotic LAR in a recurrent sigmoid tumor
2:37 pm - 2:45 pm	Itzel Vela	Robot assisted ISR in T4 cancer with coloanal anastomosis and vaginal resection
2:45 pm - 2:53 pm	Amjad Parvais	Usage of two right hands in robotic TME. Why is it better?
2:53 pm - 3:01 pm	Seon-hahn Kim	Robotic Denonvilliers fascia preserve TME
3:01 pm - 3:15 pm	COFFEE	
		RECTAL CANCER 2
3:15 pm - 3:23 pm	Seon-hahn Kim	Robotic Denonvilliers fascia preserve TME
3:23 pm - 3:31 pm	Guy Seog Choi	Robotic intrafascial TME
3:31 pm - 3:39 pm	Seon-hahn Kim	Robotic neurovascular bundle preserving anterior TME dissection
3:39 pm - 3:47 pm	Guy Seog Choi	Robotic transanal-tranabdominal ISR for very low rectal cancer
3:47 pm - 3:55 pm	Sam Atallah	Robotic Trans anal Robotic TME
3:55 pm - 4:08 pm	Itzel Vela	Robot assisted intersphincteric resection vs taTME. Pros and cons
4:08 pm - 4:16 pm	Pier Paolo Bianchi	Robotic TAMIS for rectal polyps
4:16 pm - 4:24 pm	Craig Johnson	Robotic transanal surgery for rectal mass
4:24 pm - 4:37 pm	Armando Melani	Robotic lateral pelvic lymphadenectomy .Step by Step
4:37 pm - 4:45 pm	Marcos Denadai	Robotic Abdominoperineal resection
		ADVANCES AND INNOVATIONS IN ROBOTIC COLORECTAL SURGERY
4:45 pm - 4:53 pm	Marcos Denadai	Robotic surgery in difficult situations
4:53 pm - 5:06 pm	Julio Lococo	Ergonomics in robotic surgery
5:06 pm - 5:19 pm	Juan Carlos Reyerez	Colorectal robotic surgery in latinoamerica: State of the art
5:19 pm - 5:32 pm	John Marks	Single Port Robotics - New Tactics
5:32 pm - 5:45 pm	Henry lujan	Use of indocyanine green (ICG) -Enhanced fluorescence in robotic colorectal surgery
5:45 pm - 5:53 pm	Armando Melani	Robotic usage in endometriosis
5:53 pm - 6:06 pm	Sam Atallah	New technology and navigation in the approach for rectal cancer
6:06 pm - 6:19 pm	Craig Johnson	Robotic repair in anastomotic leak test
6:19 pm	ADJOUR
