

General Surgery

Sunday, June 23, 2019

Time	Chairmans: Professor	Henry Lujan / Enrique Elli Theme Lecture/ Video
	Moderator:	To be determined
7:00 – 7:13 am	Eduardo Parra Davila	Why such an enthusiasm for robotic surgery?
7:13 – 7:21 am	Gustavo Plasencia	Robotic control of aortic injury
7:21 – 7:29 am	Juan Roberto Gonzalez	Vascular Injury control in robotic splenectomy
7:29 – 7:37 am	Craig Johnson	Robotic Repair of duodenum laceration
7:37 – 7:45 am	Gustavo Plasencia	Vascular injury in Left colon resection
7:45 – 7:53 am	Anusak Yiengpruksawan	Robotic para-aortic mass resection
7:53 – 8:06 am	Carlos Domene	Single port appendectomy
8:06 – 8:14 am	Andrea Pakula	Robotic appendectomy controversy
8:14 – 8:27 am	Anthony Gonzalez	ICG: State of the art applications in robotic surgery
8:27 – 8:40 am	Anusak Yiengpruksawan	Cholecystectomy in patient with chronic portal vein thrombosis
8:40 – 8:48 am	John Martinie	Robotic Right posterior Sector resection and portal vein thrombectomy
8:48 – 8:56 am	Giuseppe Spinoglio	Fluorescence guided robotic cholecystectomy with an accessory biliary duct
8:56 – 9:04 am	Hector Noyola	Robotic cholecystectomy in situs inversus totalis
9:04 – 9:12 am	Carlos Galvani	Robotic Median arcuate ligament release
9:12 – 9:20 am	Eduardo Parra Davila	Robotic release of median arcuate ligament
9:20 – 9:28 am	Rubens Sallum	Robotic Treatment of Dumbard Syndrome.
9:28 – 9:33 am	Juan Carlos Sánchez	Robotic Pelvic Organ Prolapse Surgery
9:33 – 9:41 am	Juan Carlos Sánchez	Robotic Organopexy
9:41 – 9:49 am	Javier Kuri	Robotic Si 3 port Sigmoidectomy with intracorporeal anastomosis POP technique
9:49 – 9:57 am	Hector Noyola	Robotic donor nephrectomy
9:57- 10:05 am	John Martinie	Robotic duodenal sleeve resection, the transmesenteric approach
	Javier Kuri	Robotic enucleation for GIST at the esophagogastric junction, is the robot the solution to avoid morbidity and mortality of gastroesophageal resection ?
